AUTHOR INDEX TO VOLUME 24, 1951

AKAMATU, H., TAKAHASHI, H., and TAMARU, K. The wet oxidation and the structure of carbon 27

ANDO, H. See KUWATA, T., 157.

BHARGAVA, P. N. Synthesis of 2-arylimino-3-aryl-4-ketotetrahydrothiazoles by condensing di-arylthioureas with monochloroacetic acid 51

CHUMAN, M. See URUSHIBARA, Y., 83

EDA, K., MASUDA, Y. On the monomolecular layer of α-aminolauric acid polymer 140

FUJII, S. See SHIDA, S., 173.

FUJII, S. and SHIDA, S. Calculation of the diamagnetic anisotropy of benzene by the method of antisymmetric molecular orbitals 242

FUJIMOTO, N. See SASAKI, T., 203.

FUJINAGA, T. See ISHIBASHI, M., 115.

FUJISAWA, S. See MIZUKI, E., 110.

FUJITA, Y. See KWAN, T., 46.

FUJIWARA, S. Chemical analysis by the measurement of nuclear moment. (Nuclear momentscope analysis) 116

FUKUDA, K. See TACHIBANA, T., 4, 155.

HAKOMORI, S., and TAMURA, S. The presence of bismuth in fish bones and human teeth as revealed by cathodo-luminescence method of analysis 117

HAMAGUCHI, K. See TACHIBANA, T., 155.

HARADA, T. Fungus and enzyme preparation of aspergillus oryzae amylase and its use in bread making 105

HAYAMA, S. See OKAJIMA, S., 90.

HIROTA, K., and MIYASHITA, I. Thermal diffusion coefficient and its relation to ordinary diffusion coefficient of solution 195

HONDA, H., and OUCHI, K. Magnetic properties of condensed aromatic hydrocarbons with four benzene nuclei. I. On the diamagnetism of chrysene 181

IKEDA, T. A Note on the theory of solution of hydrated systems 101

INABA, A. See SASAKI, T., 20.

INOKUCHI, K. Mechanisms of agglomeration of red cells by higher polymer compounds ... 78

INOKUCHI, H. The electrical conductivity of the condensed polynuclear aromatic compounds 222

INOUE, E. See SUGINO, K., 93.

ISHIBASHI, M., and FUJINAGA, T. On the new method for increasing the sensitivity in poralarographic analysis. The use of rotating current alternator 115

ISHIMORI, T. Gehalt an Molybdän in japanischen vulkanischen Gesteinen 251

IWASAKI, I., KATSURA, T., and TARUTANI, T. So-called silica content of natural waters 226

KATSURA, T. See IWASAKI, I., 226.

KATSURAI, T. On the possibility of concentrating colloid by means of freezing at the sedimentation equilibrium state attatined in a centrifugal field... 142

KAWAI, T. A note on the Schulz's osmotic pressure equation 69

Statistical thermodynamics of solution of rigid rod-like molecules 264

KAWASUMI, S. Equilibrium of the CO-NH_3-urea-H_2O system under high temperature. I. Equilibrium pressure of reaction in urea-synthesis from ammonia and carbon dioxide 148

KIMIZUKA, H., and SASAKI, T. Physico-chemical properties of the surface of aqueous solutions. II. Foam stability and mechanical properties of surface 230

KINOSHITA, M., and UMEZAWA, S. Synthetic studies on thiothreonines. II 239

KOBAYASHI, M. See TANAKA, N., 132.

KOBAYASHI, Y. See OKAJIMA, S., 85.

KUBO, M. See KURITA, Y., 13, 66.

KUME, S., and OTOZAI, K. Research on activation energy. II. Some applications of the empirical rule 257

Research on activation energy. III. On activation energy for the adsorption of hydrogen on reduced copper 262

KURITA, Y., and KUBO, M. Molecular orbital treatment of tropolone 13

KURITA, Y., NOZOE, T., and KUBO, M. Dipole moments of tropolone and related compounds 10

KURITA, Y., NOZOE, T., and KUBO, M. Dipole moments of halogen-derivatives of hinokitiol 99

KUSHIDA, H. See SHIBATA, K., 188.

KUWATA, T., NOGUCHI, S., and ANDO, H. Some higher alkyl naphthenates as lubricating oil for fine instruments 157

KWAN, T., and FUJITA, Y., Adsorption of carbon dioxide on metal catalysts 46

MASUDA, Y. See EDA, K., 140.

MATIDA, Y. New method of preparation of reduced strychnine reagent for the nitrate determination in seawater 254

MATSUSHIMA, Y. Studies on amino-hexoses. I. A new method for preparing crystalline D-arabinose 17

MATSUSHIMA, Y. Studies on amino-hexoses. II. The mechanism of the formation of so-called chitose from glucosamine 144

MATSUZAKI, K., and SOBUE, H. Heterogeneous hydrolytic degradation of cellulose 184

MATUURA, R. Studies on monomolecular films. IV. Stabilization of monoparticle films of nonpolar substances by stearic acid 200

Studies on monomolecular films. VI.

On the surface films of diphenylsiloxane polymers 234
Studies on monomolecular films. VIII. Rigidity of the monolayer of stearic acid on the surface of salt solutions 278
Studies on monomolecular films. IX. The effect of dissolved dyes on the monolayer of stearic acid 282
See SASAKI, T., 203.
MIYAKAWA, S., et UÉMURA, T. Études spectroscopiques des complexes métalliques du diphénylthiocarbazone. II 25
MIYAKAWA, S., TANAKA, I., et UÉMURA, T. Études spectrochimiques du cyclooctatraène (C_8H_8) 136
MIYAKAWA, S. See TANAKA, I., 119.
MIYASHITA, I. See HIROTA, K., 195.
MIZUKI, E., and FUJISAWA, S. Phenomenological theory of intermediate intensity reciprocity-law failure at and near the optimum in photographic exposure 110
MIZUSHIMA, S. See YASUMI, M., 60.
MORI, M. On some dark-colored chloroplumbates (II, IV) of the type $[M^{III}A_6]PbCl_6$.
MORI, S. See SHIBATA, K., 188.
MURAKAMI, M., OAE, S. and TAKEUCHI, S. Electronic interpretation of organic reaction mechanism. VII. Reactions and structures of organic halides in replacement reactions 1
NAKAGAKI, M. On the mechanism of evaporation in vacuum. I. Evaporation of silica gel. 206
On the mechanism of evaporation in vacuum. II. Vapor pressure and evaporation velocity 246
Studies on foams. VII. Theory of foam formation of dyestuff solution 269
NAKAGAWA, T. Some rheological measurements on coal tar pitches 191
NAKANE, R. See SUGIMOTO, A., 153.
NAKANISHI, M. Fluorometric microdetermination of uranium. IV. Measurement of the fluorescence intensity and determination of the uranium content in natural substances 33
Fluorometric Microdetermination of uranium. V. The uraninm content of sea water 36
NISHIMURA, T. Synthesis of *p*-acetylaminocinnamaldeyde thiosemicarbazone 160
NITTA, I., SEKI, S., and SUZUKI, K. Energy of hydrogen bond in tetragonal pentaerythritol 63
NOGUCHI, S. See KUWATA, T., 157.
NOZOE, T. See KURITA, Y., 10.
NUKAZAWA, K. See YASUMI, M., 60, 66.
OAE, S. See MURAKAMI, M., 1.
OKAJIMA, S., and KOBAYASHI, Y. Plastic deformation of the regenerated cellulose fibers. I. Dichroic study of the deformation of freshly prepared fibers 85
OKAJIMA, S., and HAYAMA, S. Plastic deformation of the regenerated cellulose fibers. II. Deformation of freshly prepared fibers from the standpoint of refractive indices .. 90
OTOZAI, K. Research on activation energy. I. A new empirical rule for the calculation of activation energy 218
OTOZAI, K, See KUME, S., 257, 262.
OUCHI, K. See Honda, H., 181.
SASAKI, T. See Kimizuka, H., 230.
SASAKI, T., and INABA, A. Conductometric titration of cation exchange resins 20
SASAKI, T. and MATUURA, R. Studies on monomolecular films. VII. The effect of metallic ions on the monomolecular film of stearic acid 274
SASAKI, T., MATUURA, R., and FUJIMOTO, N. Studies on monomolecular films. V. monomolecular films of hardly spreadable substances stabilized by stearic acid and cetyl alcohol 203
SEKI, S. See NITTA, I., 63.
SHIBATA, K. A remark on the Goeppert-Mayer and Sklar's theory on the excited states of benzene 189
SHIBATA, K. The absorption spectra of quinolino-quinolines 187
SHIBATA, K., KUSHIDA H., and MORI, S. The absorption bands of benzene and its derivatives in visible region 188
SHIDA, S. and FUJII, S. Magnetic property and resonance character of cyclo͡octatetraene... 173
SHIDA, S. See FUJII, S., 242.
SHIDA, S. See Tanaka, I., 119.
SHISHIDO, S. On the critical concentration of *n*-aliphatic acid salts and similar compounds 41
SOBUE, H. See MATSUZAKI, K., 184.
SUGIMOTO, A., NAKANE, R., and WATANABE, T. Concentration of N^{15} by chemical exchange reaction method 153
SUGINO, K., and INOUE, E. Synthesis of some organic componnds by electric discharge. I-V 93
SUZUKI, K. See NITTA, I., 63.
TACHIBANA, T., FUKUDA, K. and HAMAGUCHI, K. Adsorption of proteins from aqueous solution on the films of stearate and lipids..... 155
TACHIBANA, T., and FUKUDA, K. The critical thickness of organic thin films..... 4
TAKAHASHI, H. See AKAMATU, H., 27.
TAKEDA, M. Studies on dielectric behavior of bound water in timber in the high frequency region 169
TAKEUCHI, S. See MURAKAMI, M., 1.
TAMAMUSHI, R., and TANAKA, N. Fundamental studies on the current-volage curve in polarography. IV. On the reduction wave of organic compounds—especially on the wave which involves the "kinetic current" 127
TAMARU, K. Pyrolysis and combustion of cellulose in the presence of inorganic salts. 164
On the action of carriers in the catalytic hydrogenation of acetylene by palladium catalyst..... 177
See AKAMATU, H., 27.
TAMURA, S. See HAKOMORI, S., 117.
TANAKA, I. See MIYAKAWA, S., 136.
TANAKA, I., MIYAKAWA, S., and SHIDA, S. The

photochemical reaction of cyclooctatetraene (C_8H_8) 119
TANAKA, M. See YAMAMATO, K., 151.
TANAKA, N. See TAMAMUSHI, R., 127.
